

FIRST AID

Successful completion of this course provides students Provide First Aid with the knowledge and skills to be able to efficiently provide first aid responses and treatments in a range of situations, including in the workplace and in the general community. Students will learn; the chain of life – DRSABCD, how to provide assistance until medical help arrives, how to perform cardio-pulmonary resuscitation (CPR) in line with Australian Resuscitation Council (ARC) Guidelines and how to communicate details of the incident.

Entry requirements: This course requires practical CPR training on manikins. Most of this training is performed on the floor. Students with special needs, including physical or literacy difficulties, should speak to us to arrange appropriate assistance to ensure your needs are met.

Recertification: Safe Work Australia and Safework NSW recommend recertification every 3 years, however the Australian Resuscitation Council recommends that CPR is renewed annually.

	Upcoming courses: 31st October 2022 30th November 2022 19th December 2022 23rd January 2023 27th February 2023
